

RITIKA DIXIT

Full-Stack Web Developer | B.Tech CSE (Data Science)

+91-8303723173 | ritikadixit66@gmail.com | [linkedin.com/in/ritika-dixit](https://www.linkedin.com/in/ritika-dixit) | github.com/Ritika0070

PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in Data Science with a strong foundation in problem-solving and Data Structures and Algorithms, along with hands-on experience in web development using React.js, SQL, and database management. Passionate about building efficient, user-focused applications and continuously expanding technical skills across the full development lifecycle.

EDUCATION

B.Tech - CSE (Data Science) | Noida Institute of Engineering and Technology

CGPA: 8.2 | 2023 - Present

Class XII - ISC | Jesus And Mary School

91% | 2020 - 2022

Class X - ICSE | Jesus And Mary School

86% | 2019 - 2020

WORK EXPERIENCE

Full-Stack Developer Intern

May 2026 - Present

Eitonics Technologies (On-site)

- Implementing security features including CSRF protection, audit trail logging, input validation, and JWT-based authentication for a healthcare management system
- Integrated OCR functionality and working on UI/UX improvements to enhance overall system usability and responsiveness

Web Development Intern

April 2026 - May 2026

InAmigos Foundation

- Contributed to website development and improved frontend UX for organizational web platforms
- Built responsive web pages using HTML, CSS, and JavaScript and maintained web functionality within deadlines

PROJECTS

NetMesh - Real-Time Professional Networking Application

Jan 2026 - Feb 2026

[Live Demo](#) | [GitHub Repository](#)

- Built a full-stack networking platform with live event sessions and AI-powered profile match recommendations
- Implemented JWT-based authentication, real-time live chat, notifications, and HuggingFace embeddings for smart matching
- Deployed on Vercel and Render with automated CI/CD pipeline for continuous delivery

Technologies: React.js, Node.js, Express.js, MongoDB, JWT, HuggingFace API

Scribble - Real-Time Collaborative Whiteboard and Drawing Game

Oct 2025 - Nov 2025

[Live Demo](#) | [GitHub Repository](#)

- Developed a full-stack collaborative whiteboard with real-time drawing sync, cursor tracking, and room-based chat via Socket.io
- Integrated MongoDB Atlas for stroke persistence and built multiplayer game mode with private canvas isolation
- Implemented AI-generated hints using Groq Llama 3.3, anonymous drawing reveal, and tournament-style voting system

Technologies: React.js, Node.js, Express.js, Socket.io, MongoDB, Groq AI, Framer Motion, Vercel, Render

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python, SQL, HTML, CSS

Frameworks and Libraries: React.js, Node.js, Express.js, Mongoose, JWT, Socket.io, Framer Motion

Databases: MongoDB, MySQL

Tools and Platforms: Git, GitHub, Postman, VS Code, Vercel, Render, Maven, CI/CD

CERTIFICATIONS

AWS Academy Graduate - Cloud Architecting

Amazon Web Services | March 2026

ReactJS

Infosys Springboard | August 2025

Implementing Databases using Microsoft SQL Server

Infosys Springboard | November 2025

ACHIEVEMENTS AND ACTIVITIES

- Solved 350+ Data Structures and Algorithms problems on LeetCode
- Participated in Smart India Hackathon (SIH) and developed a web-based solution for real-world problem statements
- Active member of college Photography Club and co-organized technical and cultural college events
